

# actualwarehouse

The equivalent of a warehouse, despatch manager and delivery driver all rolled in to one

The perfect outsourcing solutions for the modern business

## actualwarehouse...

- ✔ **YOUR** stock stored in safe hands – from one pallet to an entire warehouse
- ✔ **YOUR** goods despatched – using the best carrier options
- ✔ **YOU** do what you do best – concentrating on your core business
- ✔ **WE** do what we do best – running your warehouse and making sure your goods get to your customers

Whether you require remote storage to supply your local engineers, traditional storage to save your office space or the most up to date and integrated fulfilment for your online business, Diamond has a solution for you.

Our simple **actualwarehouse** Stock Management System can integrate with your processes whether traditional or e-tail based. We can work with your off or online ordering to make any transaction a seamless part of your fulfilment. You can rely on us to keep an accurate inventory of your stored goods, pick and pack your goods and then deliver direct – to your customers, engineers or back to your office – same day or overnight.

Storage and fulfilment made easy.

# actualwarehouse...

## ✔ We will grow with you

Flexible storage solutions to match your business from a single pallet to a fully racked warehouse.

## ✔ Simple FREE storage software for start-ups, or integrated systems for the serious e-tailer

Stock control, management, pick creation and despatch inclusive option.

## ✔ Integrated with our multicarriersolutions

Choosing best despatch provider automatically or least cost options.

## ✔ Online booking, track and trace

Easy to use online monitoring of consignments.

## ✔ Proactive customer service

We monitor all your despatches so you don't have to.

## ✔ Assured delivery

We don't rest until we know your goods are successfully delivered.

## ...the facts

“ We love working with local businesses and Diamond Logistics give us the local business feel we love, and always the service of a large logistics company. Top notch! ”

Mark Rose, Boosh365

## CASE STUDY

## Easy outsource fulfilment with actualwarehouse

**Our client:** An online retailer selling funky helicopters.

**Their challenge:** Their business can run from their home office BAR the import of pallets of helicopters and sending orders through the UK and internationally from their online purchasers. They want to specialise in buying and marketing their product NOT running a warehouse and pick and pack function.

**Our solution:** To provide an **actualwarehouse** for their Virtual Business by providing storage, goods in, stock management, pick and pack, and despatch all rolled into one.

### RESULT...

- Freed from the need to run a warehouse, despatch or stock management system or employ **ANY** staff for this function.
- Easy to budget fixed per item despatch and low cost fixed monthly storage charges.
- 100% breakeven on logistics costs.
