ABOUT US

MORE THAN JUST TRANSPORT

01462 689 480 WWW.AZTEKLOGISTICS.CO.UK

The company was established in 2003, and from humble beginnings it has developed into a respected and professionally run logistics operation. The original ethos was to offer a quality service to deal with a single pallet delivery, up to a full load, throughout the UK and Europe. The ethos has remained, although the service offering has greatly increased.

In 2009, Aztek Logistics acquired its 7 acre site in Letchworth Garden City, complete with 70,000 sq ft of secure, bulk and racked warehousing. Within this impressive facility we were able to offer a number of value added services, such as pick and pack, to compliment our client's many needs.

Becoming a member of Pallet Track network in 2010, enabled us to continue our constant push for improvement in technology, which has helped us to provide cutting edge services such as online proof of delivery with track and trace, online job entry, and signature capture.

As of today, we are continuing to attract new clients through our commitment to supply a quality service. This is seen not just in the number of vehicles we now operate, but the quality of all of our equipment and staff, through training and the adoption of new technology.

Going forwards our ethos is still, and will always be, to supply a quality service, but also in the knowledge that in return, it is through the loyalty and dedication of our clients and staff, that we continue to thrive.

General Distribution

Aztek Logistics offer a full range of distribution services via our modern, and fuel efficient fleet of vehicles. The vehicles range in size from the rigid fleet of 7.5 tonne and 18 tonne, all fitted with tail lifts, up to 44 tonne artics. In this way we can offer a B2B (business to business) delivery service, as well as a home delivery service for palletised and outsize product.

The fleet covers the entire UK mainland, as well as offering an Irish and European service daily. To enable us to do this efficiently, and give our clients up to date delivery information, all the vehicles are fitted with satellite tracking. We are members of the Road Haulage Association (RHA), and consequently operate by their terms and conditions – please see the download option of these on the home page.

Contract Distribution

Aztek Logistics' contract service eliminates the stress of the day to day transport operation. We manage your full transport requirement for you, from the vehicle and driver to the administration and on-site traffic management – we do it all!

In this way the client has no initial capital outlay, no consistently changing legislation regarding the employment of drivers to worry about, and no maintenance worries. Instead the client can have a dedicated vehicle(s) with their own livery and driver wearing their company uniform – along with an expandable fleet at their fingertips. In addition, our bespoke traffic management IT system enables the client to view all their historic and live consignment information on-line, 24/7.

Groupage

Due to a wide range of customers using our distribution services on a daily basis, we are able to offer a part load and groupage service. This might entail the collection of various products, maybe from multiple locations, and consolidating together to form one delivery. To do this we use our general fleet and overnight pallet operation, to offer a next day or economy delivery service throughout the UK, Ireland and Europe.

European

With departures every day, to and from the UK, we are able to offer full and part load express services to all European destinations. Our dedicated European fleet of modern vehicles are under the control of our highly experienced operations team, which guarantees your goods are delivered from start to finish in good order, and on time.

We understand the very real pressures that exist in industry and the need to have a reliable and rapid means of moving loads to provide critical support for manufacturing, and other operations that are undertaken, on a European and multi-national scale. Our extensive knowledge of the European transport industry allows us to offer leading logistics solutions at short notice.

All of this means that Aztek Logistics has the flexibility to respond to your requirements for express trailer shipments to and from Europe with many vehicles equipped, and established, with two-driver operations, to speed critical loads through.

Overnight Pallet Delivery

As shareholder members of the Pallet-Track network, and having utilized the benefits of the Network's market leading I.T. and unrivalled service levels, we are able to provide additional services and flexibility to our customers with a comprehensive logistics solution for larger and smaller consignments.

The Pallet-Track service portfolio is extensive and highly competitive, offering our customers a choice of service options. With greater demands being placed on independent road haulage operators to provide quality services at home and abroad for their customers, Aztek can provide a flexible link to cater for every delivery requirement.

From our modern and impressive Titan Distribution Centre, Aztek, and the other members, are able to offer an unparalleled level of service. Through investment in people, information technology, and state-of-the-art materials handling, our network enjoys a fully structured service that is second to none in our industry.

Our operation is equipped to cater to our rapidly increasing volumes of palletised freight, all of which is electronically scanned and tracked. We can provide total transparency throughout the system, with full track and trace from collection through to delivery, with our data capture system recording delivery details and allowing electronic signatures to be taken at the point of delivery. In addition, the online portal gives users the ability to enter consignments directly into our depot system and access real-time delivery information.

Warehousing

From our 7 acre site in Letchworth Garden City, Hertfordshire, we are able to offer the following services:-

- Secure short or long term storage
- Bulk and pallet-racked options for in excess of 7,000 pallets
- Bespoke warehouse management systems, with client access, via web portals, to view their stock levels / movements
- Cross docking
- Container de-stuffing / loading
- Pick and pack facility - from full pallets to cartons
- Repacking facilities - stretch wrapping / banding / labelling

With 70,000 sq ft of warehousing, and large yard to offer further outside storage, we are able to offer a comprehensive range of logistics services for our clients. In addition the premises are protected by CCTV and GSM Redcare alarm systems, and site barrier entry systems.

The warehouses are of food grade, thus ensuring client's goods are kept in clean and pristine condition.

Aztek Logistics are members of The United Kingdom Warehousing Association (UKWA), and consequently operate by their terms and conditions - please see the download option of these on the home page.
