Asset storage

Storage can be a costly expense for many businesses, not just in terms of real estate but also the hidden costs – insurance, staff, forklift, security etc.

Ontime can ease those issues - our storage centres in the UK and Germany provide industry accredited, fully insured, secure storage at extremely competitive rates. You also get a dedicated account manager, that's why we are trusted by some of the biggest household names to store their assets.

Ontime storage rates are based on standard Euro Pallets which can contain as many different boxed products or items as you wish, but must fit to the maximum dimension and weights detailed below.

- Charges are per pallet (or part thereof) per month
- Minimum 1 month storage
- Discounts are applied based on number of pallets and duration of storage
- There is a small charge on receipt of each pallet called RHD (receipt, handling and despatch). This covers booking in, adding items to system and any work required to prepare full pallets for shipment

Maximum Euro Pallet Sizes

- Width – 0.80m
- Length – 1.2m
- Height – 1.4m
- Weight – 1200kgs

For non Euro pallet storage please contact us with your requirements.

Fulfilment Services

Meeting the demands of fulfilment can be a challenge for many businesses. Trying to anticipate staffing levels, space requirements and turnaround times especially during peak periods can be tricky, not to mention expensive shipping and freight charges.

Ontime provide a full range of pick and pack fulfilment services. From smaller e-commerce fulfilment to large high volume custom solutions. We regularly process thousands of pick and pack shipments per week both to business and residential addresses.

We have extensive experience in custom order fulfilment and can scale our services to meet any requirement. From B2B to B2C our tried and tested processes mean your goods are in safe hands.
