Established in 2020, Sovereign Supply Chain Services Ltd is a 3PL warehousing and logistics provider. The business was created with the vision and goal of being a pure player in the warehousing market supported by the logistics operation which unlike many of our competitors puts the warehousing element of our business at the forefront.

Our key to growth and continued success is our quality of service and flexible approach which creates a loyal and strong customer base and a good reputation within the market-place to attract new opportunities.

The sectors we currently support are manufacturing, engineering, chemical, retail, renewable energy, food and ecommerce to mention a few.
